Acknowledgements

The authors acknowledge the assistance of KB coworkers Clemens de Wolf (Collections and Research), Hans Jansen (Research & Network Services) and Wim Smit (Conservation & Optical Technology). Valuable support was offered by Yola de Lusenet (ECPA, Amsterdam), and the members of the Scientific Advisory Committee (SAC) of the ECPA: Claire Chahine (Centre de Recherches sur la Conservation des Documents Graphiques, Paris), Franziska Frey (Image Permanence Institute, Rochester), Lars Björdal (Uppsala University Library) and Mogens Koch (School of Conservation, Copenhagen). One of the tasks of this Committee is to map out research activities in preservation science. The authors are also indebted to the individual researchers and research institutes that provided the essential information on which this overview is based. Finally, they would like to thank Kathlin Smith (CLIR, Washington) for editing the original text, and those who read and commented upon earlier drafts of this report: Chandru Shahani (Library of Congress, Washington), Hans Rütimann, and Jim Reilly and Franziska Frey (Image Permanence Institute, Rochester).
